The taste of tradition
The power of nature

About Us & Our History

The story of PEJO 2018 begins with Ilir Pejo, whose entrepreneurial journey started in the early 1990s, at a time when Albania was opening a new chapter of private enterprise. Driven by determination, integrity, and an unwavering work ethic, he established the foundations of a family business built on trust, responsibility, and long-term vision.

Over the years, those values evolved into a strong business philosophy that continues to guide our company today. What began as a family ambition has grown into a modern and dynamic enterprise dedicated to the production and packaging of premium-quality olive oil for both domestic and international markets.

Established as PEJO 2018, the company combines decades of entrepreneurial experience with continuous investment in advanced technology, modern production facilities, and internationally recognized quality standards. Every stage of our operations—from sourcing and storage to blending, packaging, and distribution—is managed with precision to ensure product safety, full traceability, and consistent quality.

Our portfolio includes Extra Virgin Olive Oil, Virgin Olive Oil, Olive Pomace Oil, blended olive oil products, as well as tailor-made private label solutions developed for retailers, distributors, and international brands. We are committed to delivering products that combine authentic Mediterranean heritage with the highest standards of modern food manufacturing.

At PEJO 2018, we believe that long-term partnerships are built on reliability, transparency, and mutual respect. Our commitment to continuous improvement, operational excellence, and customer satisfaction has enabled us to establish lasting relationships with partners across multiple international markets.

Today, under the leadership of the second generation, we continue to build on the vision established by Ilir Pejo, honoring our heritage while embracing innovation and sustainable growth. As we look to the future, our ambition remains clear: to strengthen our position as one of the region's leading olive oil producers and a trusted global partner, recognized for quality, professionalism, and excellence.

Our Mission

To produce and deliver premium olive oil products that combine authenticity, consistent quality, and food safety, while creating lasting value for our customers, partners, and consumers through innovation, reliability, and responsible business practices.

Our Vision

To become one of the leading olive oil producers in the region and a trusted global partner, recognized for excellence, innovation, sustainable growth, and an uncompromising commitment to quality.

Care and quality in every drop.

Storage & Nitrogen Technology

To preserve the freshness, stability, and sensory characteristics of our olive oils, all products are stored in stainless steel tanks under carefully controlled conditions. Our nitrogen protection system minimizes oxygen exposure throughout storage, helping maintain the oil's natural quality, aroma, and flavor until the moment of packaging.

Sustainability

At PEJO 2018, sustainability is a long-term commitment embedded in our daily operations. We continuously invest in solutions that reduce our environmental impact while improving operational efficiency and creating long-term value.

Our facility is equipped with solar energy systems that contribute to cleaner and more efficient production. We have also integrated electric vehicles into our operations for product distribution and staff transportation, supporting our commitment to reducing emissions and promoting responsible mobility.

Together with responsible resource management, efficient production processes, and strict food safety standards, these initiatives reflect our dedication to building a more sustainable future for our customers, partners, employees, and the communities we serve.

We believe that protecting quality also means protecting the environment for future generations.

Founder Message

ILIR PEJO

When I began my entrepreneurial journey in the early 1990s, my goal was simple: to build a business founded on honesty, hard work, and long-term trust. I believed that lasting success is never achieved overnight it is earned through dedication, responsibility, and respect for every customer and partner.

Those values have guided our family throughout the years and remain the foundation of PEJO 2018 today. Watching our company grow into a modern olive oil producer while preserving the principles on which it was built is my greatest source of pride.

I am grateful to everyone who has contributed to this journey our employees, customers, suppliers, and partners. Their trust has been the driving force behind our continued growth.

As the next generation leads the company forward, I am confident that the values we established will continue to inspire innovation, excellence, and sustainable success for many years to come.

CEO Message

XHOLJON PEJO

At PEJO 2018, we see quality not as an objective, but as a responsibility. Every product we deliver reflects our commitment to excellence, innovation, and the trust our customers place in us every day. Building on the strong foundation created by our founder, we continue to invest in modern technology, advanced production systems, and internationally recognized quality standards. Our ambition is not only to grow our business, but to create long-term partnerships based on transparency, reliability, and shared success. As we expand into new international markets, we remain focused on continuous improvement, sustainable growth, and delivering products that proudly represent the quality of Albanian olive oil around the world.

On behalf of the entire PEJO 2018 team, thank you for your trust. We look forward to building a successful future together.

Quality Control

Laboratory & Quality Control

Every batch of olive oil received at our facility undergoes rigorous quality control before entering the production process. Our laboratory performs comprehensive analyses to verify compliance with strict quality and food safety standards.

Each batch is carefully evaluated for key quality parameters, including:

* *Free Fatty Acidity (FFA)*
* *Peroxide Value*
* *UV Absorbance (K232, K270 & ΔK)*
* *Moisture & Volatile Matter*
* *Gas Chromatography (GC) Analysis*
* *Organoleptic Assessment*
* *Density & Physical Parameters*
* *Batch Traceability Verification*

Only batches that successfully meet our strict quality requirements are approved for production and packaging, ensuring consistency, authenticity, and premium quality in every bottle

Private Label Solutions

Tailor-Made Products for Every Need

The PEJO oil factory offers comprehensive, customized solutions—from product concept and oil selection to final packaging. We develop tailored product lines for private labels, specialized markets, the HoReCa sector, and large retail chains, with careful attention to every detail, format, and finish. From elegant dark-glass bottles and practical PET containers to family-sized canisters and high-capacity packaging, PEJO ensures that every product aligns perfectly with the brand's identity, the client's needs, and the demands of both domestic and international markets.

From Southern Albania to International Markets

With an established distribution network across the Balkans, Italy, the United Kingdom, and the United States, PEJO has become a trusted partner in international markets.

- Expert Oil Selection and Blending using carefully selected, high-quality oils, including olive oil sourced from Southern Albania.
- Market-Tailored Product Development adapted to the specific needs, preferences, and packaging requirements of each market.
- Strict Quality Control throughout every stage of production, packaging, storage, and distribution.
- Strong International Partnerships built on professional cooperation, market knowledge, trust, and long-term commitment.
- Speed and Reliability in processing, managing, and delivering orders across the Balkans, Italy, the United Kingdom, and the United States, Canada.
